

EXP38

Expansion Module

Added versatility for your Yealink IP phone

Add functionality to your Yealink IP phone with an EXP38 expansion module of 38 fully programmable DSS keys with dual colour LED, connected to your handset by RJ11 line cord. For larger installations, up to 6 modules can be linked to provide up to 228 keys. The programmable keys can support any of the IP-PBX functions available on the IP phone. The EXP38 is ideal for anyone called upon to manage and monitor a large number of calls.
